FALCONRY

FALCONRY

December 2015

Introduction

This publication supersedes U.S. Air Force Academy Library, Special Bibliography Series Nos. 3, 27, 38, 54, and 81. It is intended to be a comprehensive bibliography of materials on falcons and falconry that can be found in McDermott Library at the U.S. Air Force Academy.

FALCONS are being defined as birds belonging to the:

ORDER: Falconiformes

FAMILY: Falconidae

SUBFAMILY: Falconinae

Herpetotherinae

Polihieracinae

Material on the SUBFAMILY: Polyborinae will also be included when found.

FALCONRY is being defined as the art or sport of training birds to attack wild fowl or game, whether the birds be falcons, hawks, owls or eagles.

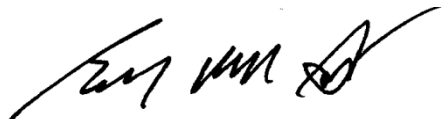

Generally excluded are references to newspapers, dictionaries and general encyclopedias because of their brief and/or repetitive nature. Exceptions are made for items meriting special consideration.

No attempt has been made to judge the quality of material included other than a determination of relevance to the stated topics. Annotations have been made to indicate inclusion of items in other significant bibliographies: see items 66, 567, 946 and 1229.

In an effort to preserve the integrity of the collection, most of the monographic items cited here are housed in the Clark Special Collection Branch of McDermott Library. Many of these works are rare and valuable editions and proper environmental and security precautions must be taken.

In the time since the previous edition of this bibliography was printed in 1990, there have been many technology changes in the publication of periodical literature. Most titles are available electronically and many titles are no longer printed on paper. Articles may be available from a multitude of sources. As a result of these changes, this bibliography no longer includes general periodical articles, but rather concentrates on articles about the Air Force Academy Falconry program. Articles cited in other significant bibliographies mentioned above are also included as appropriate.

This bibliography was compiled and edited by M. Douglas Johnson using Pro-Cite bibliographic software. It was further edited and prepared for printing using Microsoft Word word processing software.

EDWARD A. SCOTT, Ph.D.
Director, McDermott Library

COLLECTION DEVELOPMENT POLICY STATEMENT

CLASSIFICATION: SK 321 (FALCONRY)

February 2014

General Purpose: As the falcon is the official mascot of the USAF Academy, a special attempt is made to acquire a collection of materials on falcons and the art and practice of falconry.

Collection Level Intensity: Comprehensive.

Geographical Areas: No restrictions.

Chronological Periods: No restrictions.

Types of Material Collected: Monographs, serials, dissertations, theses, translations, bibliographies, government documents, report literature, pamphlets, article reprints/photocopies, special studies, selected art works, novels, videos, regulations and rulings, legislative materials, and other items if suitable for display.

Types of Material Excluded: Promotional literature and advertisements, club notices and newsletters. Although some types of materials are not actively acquired, few materials are specifically excluded. Electronic sources include CD-ROMs, DVDs and evaluated Internet web sites.

Other Factors: Most items on falcons will be found in the classes QL and SK, but items may also be found in other classes (i.e., fiction, veterinary medicine). Items dealing with birds of prey likely to include sections on falcons are purchased. Items discussing methods of hunting that cover falconry are also purchased when identified.

Subjects and Collecting Levels: The primary areas on falcons and falconry are:

QL 696.F34	Falconiformes
SK 321	Falconry

An attempt is made to collect all significant publications on falcons and falconry within the following guidelines:

- a) New works (monographs, theses, documents, etc.) are collected as announced; multiple copies may be considered if appropriate for display or to meet patron/falconry program demands.
- b) New editions of previously published works are acquired if substantial revisions/additions have been made to the text or to meet patron demand.
- c) Out-of-print items (rare books) may be obtained through available gift monies or donation. Particular importance is placed on items listed in Harting's **Bibliotheca Accipitraria** and Swift's **Bibliotheca Accipitraria II**.
- d) Art works relevant to Academy programs or operations may also be obtained through gift funds or donation.

- e) Periodical subscriptions are normally limited to titles published in the United States unless acquired as gifts. Titles collected are those directly relevant to falcons and falconry; no attempt is made to collect broader oriented ornithology titles. Reprints/photocopies of single articles having particular significance or importance may be obtained through interlibrary loan or other sources (gifts, exchange, etc.).
- f) Other items (hoods, plates, jewelry, stamps, etc.) suitable for display purposes may be obtained through gift funds or other sources as appropriate.
- g) Published items may be in any language.

Weeding Criteria: No weeding is anticipated.

TABLE OF CONTENTS

I.	MONOGRAPHIC WORKS	1
	Monographic works include published books, U.S. Government documents, technical reports, theses, dissertations, conference proceedings and other significant items that have been cataloged into the book collection of McDermott Library, USAF Academy. General works on birds of prey are included if they contain significant information on falcons. Cross references have been added to link commonly accepted authors to more authoritative names as listed in the OCLC database.	
II.	JOURNAL ARTICLES	169
	Articles about the Air Force Academy Falconry program or cited in other significant bibliographies.	
III.	POETRY	177
IV.	AUDIOVISUAL WORKS	184
V.	UNPUBLISHED ITEMS	197
VI.	INDEX	201

25. Anderson, Clifford M, Randall K Knapp, and James K Fackler. The Behavior and Ecology of Fall Peregrine Falcons at Lummi Bay and Vicinity, Whatcom County, Washington. Seattle, Wa.: U.S. Army Corps of Engineers Seattle District, 1984.
Call Number: QL 696 .F34 A534 1984
Abstract: "The behavior and ecology of Peregrine-Falcons were studied at Lummi Bay, Whatcom County, Washington, from October through December, 1983. Peregrines were observed 207 times on 80% of the field days. We identified a minimum of 15 individual falcons during the study. The main peregrine activity was centered in and around Lummi Bay. Habitat preferred by the dominant adult female included a wooded ridge, tidal mudflats, and level agricultural fields. Combined observations yielded 154 hours and 46 minutes of direct study of peregrine behavior: falcons were perched 84% of that time, in flight 16%. Forty two prey items, primarily ducks and shorebirds, were recovered. Peregrines were successful hunters 22% of the time; 153 hunting flights were witnessed. An adult female was radio-tagged on 1 December and followed over the next 30 days. She

- roosted in the San Juan Islands, 11 miles southwest of the main study area."--Abstract

 Call Number: SK 321 .A671 2003
 Notes: "D'Arcussia's Falconry 1643" -- Spine title.
 "D'Arcussia's Falconry: A Translation" -- Jacket title.
 "To D'Arcussia the word "faucon" signified a bird of the species that we call the peregrine but nothing else. He never used it, as we use "falcon" to indicate a member of the falconidae or a "longwing". He never used it, as we do, to indicate a female member of that group. "Faucon" applied only to *Falco peregrinus*." --Notes on Translation, page [xxvii].
 Abstract: "Charles d'Arcussia, a Provençal nobleman, was descended from Neapolitan ancestors, two of whom had supplied hawks to the Holy Roman Emperors and had left a note-book on falconry matters which was still in the family four hundred years later. Charles had been brought up in the court of le Comte de Tende, Governor of Provence, who kept a hawking establishment on the grand scale. With these antecedents it is not surprising that falconry was his ruling passion, but he had the educated and orderly mind that allowed him to create this masterly treatise on falconry that was a best-seller in his day, running to eleven editions within forty-five years, and still valued by 19th Century English falconers.
 "Of comparable texts written before his day there remain to us only the Emperor Frederick's great discourse and, from 1386, that of the Spaniard, Pero Lopez de Ayala, but during d'Arcussia's time there appeared George Turberville in 1575, Symon Latham in 1614, Diogo Fernandes Ferreira in 1616, and Edmund Bert in 1619. the reason for this little spate of books on falconry is more likely to be the advances in printing than an upsurge in enthusiasm for falconry. With the advent of the shot-gun, the sport was about to wither away.
 "It may be helpful for readers who have few ideas about what was happening in France at

this period between the 16th and 17th Centuries to imagine the Three Musketeers swashbuckling their way round France." --Translator, Book Jacket.

Notes: Contents: An approved treatise of hawkes and hawking / by Edmund Bert (first published in 1619) -- A perfect booke for kepinge of sparhawkes or goshawkes / by an unknown author (from a manuscript dated 1575)

47. Argue, Derry, and George Turberville. The Book of Falconry or Hawking : a Modern Transcription of an Important 16th Century Book on Falconry and Hawking. Tain, [Scotland], UK : Argue Publishing, 2006.

Call Number: SK 321 .T931 2006

Notes: "A modern transcription of The Book of Falconry or Hawking, written and edited by George Turberville, first published [printed] in 1611, Edited and Transcribed in 2006 by Derry Argue".

Original was first published in 1575.

"There are about a dozen woodcuts distributed randomly throughout the [original] book and most of these are repeated several times without any particular reference to the text. Book illustrations in the 16th century were clearly expensive and the printer has inserted a woodcut adjacent to whatever text he considered relevant." --Page [8] of Editor's Notes and Explanations.

Abstract: "The modern transcription of George Turberville's "Book of Falconry or Hawking" makes one of Europe's most important 17th century books on falconry available to the average reader. The book follows the same style as Derry Argue's recent rendering of Edmund Ber's classic on accipiters, "An Approved Treatise of Hawks and Hawking," first published around the same period.

"George Turberville compiled "The Book of Falconry or Hawking" from his discussions and correspondence with the top falconers of his time. During the early 17th century, the study of the art of falconry was considered a vital part of the education of a gentleman. As a diplomat, Turberville travelled extensively and never missed an opportunity to research falconry. His original book, published in the language and style of the time, is virtually incomprehensible to most modern readers, a problem this transcription is designed to address.

"Derry Argue's transcription and publication of Albert Bert's "Training the Short-Winged Hawk -- An Elizabethan Perspective" has been very well received and it is hoped that this current transcription of Turberville's book will follow a similar course." --Publisher's description on book jacket.

Call Number: QL 696 .F34 C62 2010
Abstract: "The Saker Falcon (*Falco cherrug* Gray 1834) is a typical bird species found in open areas, steppes, and semi-deserts. It reaches its westernmost distribution range in the Carpathian Basin. The global population of this 'noble' raptor species -- it plays an important role in Hungarian legends as 'turul' -- is estimated to be six--eight thousand pairs. However, the number of pairs is decreasing throughout the distribution range of the species (except for in the Carpathian Basin). It is especially important to conserve the Hungarian-Slovak populations. In regard to the conservation aim above, between 2006 and 2010 an extensive Hungarian-Slovak Saker conservation programme was implemented. This was led by Bükk National Park Directorate, involving 16 partners and

using the financial support of the European Union's LIFE-Nature programme."--Introduction, p. [1]

69. Barkley, Jana. The Apprentice . Adams Basin, NY: The Wild Rose Press, Inc., 2014.
Call Number: PS 3602 .A755 2014
Abstract: "There are no accidents...A pain-filled encounter with an escaped hawk prompts suburban divorcee Samantha Leyton to learn more about the untamed bird of prey that attacked her. Surprised and intrigued, Sam soon finds herself obsessed with an ancient passion even more consuming than the deadly disease in her body. Falconry sponsor Hank Gerard sensed something different about the smart, city-dwelling blonde from the moment they met. A master at understanding wild raptors, the hard-edged loner soon realizes his newest apprentice hides a secret behind the sheer grit, drive, and independence that privately captivate him--a secret Sam is determined to keep hidden. If her fellow falconers discover she's ill, she could lose her only remaining connection to life--her red-tailed hawk, Chance. Against the backdrop of the sport of falconry, will two souls destined to meet learn to trust again before it's too late?" --Back of book.

Notes: The book is intended for a non-scientific audience but does contain previously unpublished information, tables, and graphs plus an extensive literature cited section and a bibliography for Eastern and Midwestern Peregrine restoration publications from

1971-2000.

Abstract: The Peregrine Falcon restoration is the largest and most comprehensive endeavor to restore wild populations of an endangered species ever accomplished. The magnitude of the program and level of cooperation achieved are unique in nature conservation. Why and how this effort was achieved is documented in this book and serves as an example of what can be accomplished when people are willing to work cooperatively.

Authored by 69 people with long-term involvement, and most of the individuals key to the success, the story is presented chronologically, topically, and geographically. Tom Cade begins with a prologue on the life history traits of the Peregrine Falcon in relation to recovery as only someone with over fifty years of experience can write. In the following 21 chapters and 57 sidebars the story unfolds in each author's own words.

This handsome, large format book features 495 images, many with historical significance. Master artists have contributed their depictions of Peregrines, including the dust jacket painting Peregrine Falcon and White-throated Swifts by famed North American wildlife artist Robert Bateman.

Although the focus is in North America, including Greenland, the story extends to Europe with two renowned British scientists contributing chapters. Derek Ratcliffe tells his story of discovering DDT as the cause for Peregrine Falcon decline, followed later in the book by Ian Newton documenting the contribution of the restoration program to the understanding of the Peregrine and summarizing what is known about the species.

Call Number: SK 321 .C356 2009

Abstract: "' ... Abbiamo investigato intorno tutto cio che concerne quest'arte ... allo scopo di poter essere, alla fine, in grado di raccogliere in un trattato tutto quanto Ci avevano insegnato la Nostra esperienza ...' In Frederick's words the term "experience", in reference to the practical exercise of falconry, is a key foundation of his intellectual project. It is underlined as being the keystone criterion for all his statements. This dissertation is an attempt to measure the role 'experience' and 'observation' played not only for the creation of De arte venandi, but for the management of Frederick's government."--Abstract, p. iv. "In the course of this study, which will focus on the nature of medieval falconry and hunting, I shall try to establish how symbolic models tied to this tradition were interpreted during Frederick's time. If we consider these activities as a form of social and cultural

container, it is necessary to ask not only what contents were gradually introduced but in what way the shape of the container conditioned such contents. The object of this study is not hunting per se, but its specific role within the culture of Frederick's world. Hunting and falconry were considered by Frederick to be aristocratic activities. Consequently, social and cultural issues will be analyzed in connection with the hunting experience of his aristocratic social world. For Frederick's social culture is, above all, the system that is under observation, while hunting and falconry are the lenses through which this system will be observed."--Abstract, p. iv-v. "I devote each of the five chapters of this study to an historic investigation on the influence falconry and hunting had on Frederick's life in an attempt to construct a different view of what might have been at work in his complex world, in his emotional and intellectual reality, and in the worlds of desire and decision that lie beyond the minimal traces of the life this person once led."--Abstract, p. v

"What you have just read is what James Campbell originally intended you to read when he wrote his treatise. Unfortunately, before publication, he submitted the manuscript to a certain Reverend A. Gillies for his opinion. According to Joseph Haslewood, the celebrated editor of the 1810 reprint of The Book of St. Albans, Gillies persuaded Campbell that, while what he had written concerning the practical side of falconry was all very fine, his book required a learned discourse concerning the origins of the sport. When Campbell, perhaps intimidated by this erudite churchman, confessed that he knew little of falconry's history, Gillies offered to supply the deficiency. ... I have omitted them because they should not be allowed to contaminate Campbell's treatise twice."--Postscript.

Call Number: QL 696 .F34 C667 2004
Abstract: "The Peregrine Falcon (*Falco peregrinus*) is a rare raptor that occurs in many regions of British Columbia. There are three subspecies in the province, two that breed and one that occurs as a migrant. Peale's Peregrine Falcon (*F.p. pealei*) breeds, and is largely resident, in the harsh landscape and environment of the Queen Charlotte Islands, northern Vancouver Island, and islands and headlands of the central and north mainland coast. It is

listed as a species of Special Concern by the Committee on the Status of Endangered Wildlife in Canada (COSEWIC). ... The American Peregrine Falcon, "anatum" subspecies (F.p. anatum), is a bird familiar to many as one of the icons of the environmental movement after the late 1960s. It is currently listed as Threatened by COSEWIC, after being downlisted from Endangered in 1998. The American Peregrine Falcon has a fascinating history in British Columbia. This subspecies formerly occurred in interior British Columbia and in much of the rest of interior North America south of the treeline. Populations across North America suffered catastrophic declines in the 1950s and 1960s. ... Remarkably, beginning in the 1970s, the American Peregrine Falcon seems to have colonized the Gulf Islands in Georgia Strait, where 11 occupied aeries were found during surveys in 2000, and has recolonized aeries in the Lower Mainland. It seems reasonable to conclude that pioneering individuals are now occupying a previously unoccupied region in British Columbia, having taken advantage of an abundant new prey species, the European Starling (*Sturnus vulgaris*), and available cliff nesting habitat. ... The Arctic Peregrine Falcon (F.p. tundrius) breeds in Arctic areas of North America and Greenland and occurs in British Columbia only as a migrant. Very few records exist for the province. It is designated as a species of Special Concern by COSEWIC."--Executive summary, p. vi-vii

324. Crane, Ben. Sparrowhawks : a Falconer's Guide. Ramsbury, Marlborough: The Crowood Press, 2014.
 Call Number: QL 696 .F32 C736 2014
 Abstract: "Flying imprint sparrowhawks is often unfairly portrayed as being overly complex and highly technical. Sparrowhawks - A Falconer's Guide aims to paint a far more informed picture, and to perhaps dispel some of the myths. Written with the beginner in mind, it is based on considerable first-hand experience of the author and a number of other respected falconers who have specialized in flying sparrowhawks. By drawing comparisons with some of the most ancient trapping and training techniques of the East, and by making a connection with modern Western falconry practices, this remarkable book encapsulates the timeless beauty and joy of sparrowhawking, which crosses all cultures."

Call Number: QL 696 .F34 D382 2014
Abstract: "Colorful, noisy, and brash, the American Kestrel is the most endearing of North America's raptors. With its vivid rufous and blue-gray plumage, peppered with dashes of black and white, this bird of prey is instantly recognizable to both novice and expert bird watchers, whether it's diving for an insect on the wing or hovering over an open field while hunting for mice. The American Kestrel's distinctive call, readily heard from miles away, is another identifier that makes this predator more noticeable than others. There's no mistaking its klee, klee, klee, from which it received the nickname killy hawk. In American Kestrel: Pint-sized Predator, part natural history, part photographic exploration, renowned bird expert and master educator Kate Davis delves into the world of the American Kestrel, inviting you into the safe confines of its cavity nest and favored habitats. You'll learn about

- the American Kestrel's hunting tactics and prey, breeding strategies, migration paths and patterns, and the kestrel's current status. Their numbers are declining, and nobody's quite sure why. Davis enthusiastically imparts the wisdom she has gained through extensive research and firsthand experience. One hundred astonishing photos shot by Davis and award-winning photographer Rob Palmer illustrate in full-color glory the story Davis deftly weaves." --Description from <https://www.hawkwatch.org/support/store/books>

Call Number: QL 696 .F34 D45 2004
Abstract: "This report is one in a series of literature syntheses on North American grassland birds. The need for these reports was identified by the Prairie Pothole Joint Venture (PPJV), a part of the North American Waterfowl Management Plan. The PPJV adopted a goal to stabilize or increase populations of declining grassland- and wetland-associated wildlife species in the Prairie Pothole Region. To further that objective, it is essential to understand the habitat needs of birds other than waterfowl, and how management practices affect their habitats. The focus of these reports is on management of breeding habitat, particularly in the northern Great Plains."--Cover verso

Call Number: QL 696 .F34 D74 2014
Abstract: "The Peregrine, the fastest bird in the world, has made a remarkable recovery over the past 30 years. As the species re-establishes itself around the world it is becoming a familiar sight in towns and cities. This beautifully illustrated book is the first in-depth focus on the lives of Peregrines in towns and cities. In words and stunning photographs, Ed Drewitt reveals the latest information on Peregrine behavior including how they are adapting to, and taking advantage of, the urban environment. The book is also a how-to-guide, with information on finding peregrines, studying their diet, ringing individuals for research, putting up nest boxes and enabling people to learn more about them through public viewing points or web cameras. Ed also discusses what makes a Peregrine urban, their contemporary relationship with people, and helps dispel some myths and reveal some truths about this agile predator." --Publisher's description.

Call Number: QL 696 .F34 P76 2004
Abstract: "During one day in the end of September several people interested in questions concerning the Gyrfalcons attended a workshop arranged during the conference "Fjäll i fokus" arranged by Fjällmistra and initiator was Maria Hörnell-Willebrand and John Ekenstedt. The aim of the workshop was to spread knowledge about actual work concerning Gyrfalcons, get more knowledge about what genetically techniques could answer and initiate cooperation between all four [nordic] countries. My hope with these proceedings is that they could be a start for further cooperation and I have tried to summarize the lectures and discussions during the workshop in a comprehensive way. Scott Newey kept notes during the discussions and I have used the presentations as the mainframe for the texts. In the end some texts concerning several topics are added from participants of the workshop. The most important thing during the workshop was the establishment of "The Nordic Working Group on Gyrfalcon". It will be a forum for the coordination of the work with Gyrfalcon in the Nordic countries and hopefully increase the status of the scientific part. How it will work is up to the individual members and if it works well one additional meeting could be arranged in the future. Johan Ekenstedt, Umeå, December 2004."--Foreword, p. 3

Electronic Access: <http://www.dtic.mil/dtic/tr/fulltext/u2/a108778.pdf>
Abstract: "The following is a summary of the possible negative effects of the study stimuli on nesting raptors: (1) direct interruption of behavior leading to exposure of eggs or young to inclement weather, (2) physiological stress of parents or young leading to reduced reproductive performance, (3) eyrie abandonment (immediate and long term), (4) accidental death of young prematurely fledging when startled, and (5) other short-term behavioral responses. The goals of this study were to determine which if any of the possible adverse responses described above were operative in the case of peregrines nesting in Arizona. The approach was to experiment first with surrogate species and thereby minimize the possibility of disrupting Peregrine Falcon breeding efforts. By using a broad range of surrogate species, we also hoped to determine if any of these species were hypersensitive. The objective in many of the experiments was to simulate a worst case situation (i.e., booms louder and oftener than would be expected and repeated passes with aircraft oftener and closer than would be expected even in extreme conditions in the wild). The rationale behind this approach was as follows: if severe behavioral response could not be generated in the worst case experiments, then we could logically conclude that responses to less intense stimuli would be less severe."--P. 2-3

Call Number: SuDocs I 49.15/3:238
Abstract: This report presents the distribution ecology, management and status of 12 species of raptors, compiled largely from the literature, and an extensive bibliography on each species. Earlier declines in the bald eagle, Cooper's hawk, merlin, osprey, peregrine falcon, and the sharp-shinned hawk appear to have ended with restrictions on organochlorine biocide use, and most populations appear to be recovering. However, continued use of organochlorine biocides in South and Central America has the potential of negating this positive trend. Depletion of fisheries due to acid rain may pose a future threat to bald eagle and osprey populations in some regions. Loss of essential habitat has affected declines in the caracara and western burrowing owl and the disappearance of the northern aplomado falcon from the southern United States. Most populations of the ferruginous hawk, marsh hawk, and prairie falcon appear stable; habitat loss is the most critical factor in population changes.

Call Number: QL 696 .F34 F3 2009
Abstract: This dissertation summarizes three investigations in which immunosuppressive effects of environmentally relevant concentrations of dietary methylmercury (MeHg) were assessed in adult non-breeding male kestrels, female kestrels during egg laying, and nestling kestrels. Immunological endpoints included cell-mediated immunity (CMI) using the phytohemagglutinin (PHA) skin-swelling assay and antibody-mediated immune function using the sheep red blood cell (SRBC) hemagglutination assay. Hematology profiles were evaluated over time in adult males and nestlings to monitor immunological and physiological status of kestrels. Primary and secondary immune system organs were examined histopathologically to identify T and B cell-dependent structural changes related to immunosuppressive effects of MeHg

516. Grant, Alastair Neil. One Sense Missing. London: Olympia Pub, 2009.
Call Number: QL 696 .F34 G73 2009
Abstract: "There has always been a special relationship between men and falcons. Over the centuries, falconers have trained, worked, and cared for their feathered hunting partners. In One Sense Missing this relationship is taken further, for the falcon in question is blind.

Unable to live the same life as a sighted falcon, Mrs T is nurtured with immense care and patience as well as experience and scientific knowledge. ... interwoven with her tale are tales of other birds of prey, experiences recounted by other breeders and scientists, and many enquiries into the nature of blindness, and how falcons behave under different circumstances. There are links to wildlife, the environment; conservation challenges that have been addressed; and current conservation challenges."--Back cover.

Call Number: SK 321 .M577 2013
Notes: "17th Century French Falconry: Harmont and St. Aulaire" -- Spine title.
Translated from French from digital images of the volumes. --Translator's Preface, page xvii.
"The first volume, published in 1640 at the house of Pierre David, in Paris, contained two works: "The Hunting of Jacques du Fouilloux" and "The Mirror of Falconry" by Pierre Harmont. The book on hunting had been first published in 1562 and the book on falconry, as far as I can discover, in 1634, by Pierre Billaine. This double volume was reprinted in 1650 at the house of Clement Malassis." --Translator's Preface, page xvii.
"The second volume, published in 1619, by Robert Fouet, is "The Falconry of Francois de Sainte Aulaire", a major work. It was not reprinted until 1888." --Translator's Preface, page xvii.
Abstract: "The works of Pierre Harmont and Francois de Sainte Aulaire are not going to provide a 21st Century falconer with any hitherto secret tips that he or she may hope to use to produce a higher-flying, faster-stooping, harder-hitting falcon, or a steadier-tempered, hardier, and more enterprising hawk. After all, the English manuals from the same period have already been thoroughly dredged with the same hopes, and their pearls examined. What they do offer us, beside the opportunity to compare our ways with theirs (and find more similarities and differences) is the opportunity to admire what must be the most masterly exposition, by Sainte-Aulaire, of fundamental falconry. Most of us may expect a progress through the rudiments to be too familiar a road but most of us will, in the event, find the clarity of his instructions and explanations admirable to the point of enthralling. Even the many chapters on medical matters can hold the attention.
"The majority of books, once read through, however much pleasure they may have given, will come at last to standing undisturbed on their shelves. It is no discredit to this rare and aged treatise that the same fate must be predicted for it. In truth, few copies will ever be read right through to the end. Nevertheless, those who own one will go on taking pleasure in seeing it standing there, among its other treasured companions in the bookcase." --Book jacket

Abstract: "Carlos and Ricky arrive at a campsite with their father, where they discover a large injured bird. Dad identifies it as a falcon and he calls a nearby rescue center. Max and Lisa, from Raptor Center, put the falcon in a cage and take it back with them. The falcon does well and Max suggests the boys come to watch the release of the falcon in a few weeks. Later, the boys and their parents go to the place where the bird will be released. Their father tells them they should feel proud about helping to save the falcon, which flies off into the distance."--Publisher's website

Call Number: SK 321 .H375 2005

Notes: Includes Swift 251.01 & 590.01

Abstract: "This collection of scarce articles on falconry have been gleaned from sporting publications of the late 1800s. Both Harting and [Gage Earl] Freeman were well known falconers who wrote various books on the sport. They also contributed many learned articles to the sporting press of the time and were often requested for chapters on falconry for insertion in other author's books. This book carries selected items from the above, most of which will have been unread by the many devotees of this fast growing pastime."--Back cover.

Call Number: PR 6058 .I528 K47 1969
Abstract: Billy Casper is a boy with nowhere to go and nothing to say. He is part of the limbo generation of school leavers too old for lessons and too young to know anything about the outside world. He hates and he is hated. His family and friends are mean and tough and they're sure he's going to end up in big trouble. But Billy knows two things about his own world. He'll never work down the mines and he knows about animals. His only companion is his kestrel hawk, trained from the nest and like himself, with the will to destroy or be destroyed.
This is not just another book about growing up in the North [of England]. It's as real as a slap in the face to those who think that orange juice and comprehensive schools have taken the meanness out of life in the raw working towns.

Abstract: "There are...only about 550 active license holders in California out of approximately 7,000 nationwide. About forty new apprentices start every year in California. About the same number drop out. To become a falconer you must prove to your state, and to one general or master falconer, that you have the book knowledge, facilities, equipment and ambition to become a falconer. ... The book knowledge is tested in the form of your state's falconry examination and is the first and most difficult 'gate' you must pass through to become a falconer. ... The test is composed of about fifty to fifty-five questions about falconry, natural history of the birds of falconry, equipment, facilities, laws and regulations, and so on. ... This guide asks questions in the same way the states ask the test questions."--Cover verso.

Abstract: "The story of the near-extinction of the American Peregrine Falcon, and the fight to save it against tremendous odds." . . ."Forty years ago, the peregrine falcon was on the U.S. endangered species list and many doubted that it would survive. Marcy Houle was a young wildlife biologist observing one of the last remaining pairs--located at a site in southwest Colorado slated for development as a major tourist site. First published in 1991 and winner of several national awards, this book chronicles her work at Chimney Rock along with the recovery of the species. A new preface examines the last thirty years of the peregrine population and its remarkable comeback and culminates with President Barack Obama's designation of Chimney Rock as a national monument." --Publisher's descriptions.

680. Jameson, Conor Mark. Looking for the Goshawk. London ; New York: Bloomsbury, 2013.
Call Number: QL 696 .F32 J36 2013
Abstract: The book traces Conor Jameson's travels in search of the Goshawk, a magnificent yet rarely seen (in Britain at least) raptor. Each episode of the narrative arises from personal experience, investigation, and the unearthing of information from research, exploration and conversations. The journey takes him from an encounter with a stuffed Goshawk in a glass case, through travels into supposed Goshawk territories in Britain, to Berlin - where he finds the bird at ease in the city. Why, he wants to know, is the bird so rarely seen in Britain? He explores the politics of birdwatching, the sport of falconry and the impact of persecution on the recent history of the bird in Britain and travels the length of Britain, through central Europe and the USA in search of answers to the goshawk mystery. Throughout his journey he is inspired by the writings of T H White who told of his attempts to tame a Goshawk in his much-loved book. It's a gripping tale on the trail of a most mysterious and charismatic bird.

Call Number: SK 321 .K3 2007
Abstract: "The nobility of the Renaissance era enjoyed an elaborate form of hunting, called par force, which involved many horses, dogs, and huntsmen and offered many opportunities for social display. Par force hunting came with a set of ritualized actions and its own unique vocabulary. English monarchs, especially James I, instituted regulations on who could participate based on social status. As the higher social echelons became more permeable, and hunting remained the recreation of choice for those of elevated status, this turned the sport into a skill necessary for those new to the court. This study looks at early modern English hunting manuals to examine how they functioned as courtesy literature for those newly admitted to higher levels of society, examining the rhetorical and instructional techniques employed in early modern English hunting treatises to ascertain similarities between to two types of books."--Abstract, p. vi

Call Number: QL 696 .F34 K667 2004
Abstract: "This report is one in a series of literature syntheses on North American grassland birds. The need for these reports was identified by the Prairie Pothole Joint Venture (PPJV), a part of the North American Waterfowl Management Plan. The PPJV adopted a goal to stabilize or increase populations of declining grassland- and wetland-associated wildlife species in the Prairie Pothole Region. To further that objective, it is essential to understand the habitat needs of birds other than waterfowl, and how management practices affect their habitats. The focus of these reports is on management of breeding habitat, particularly in the northern Great Plains."--Cover verso

766. Leach, Richard, Fedak, Alfred V, and Devers, Peter Barry. The Falconer a Sacred Hymn. S.l: s.n., 2007.

Call Number: SK 321 .L434 2007

Notes: Probably published by Archives of American Falconry, Boise, Idaho.

Limited ed. of 5 copies, autographed by poet and composer.

"Foreward: I came across this delightful hymn while researching the history of the sport of falconry. It is a wonderfully powerful anthem, both in the solemnity of the music and the fine inspiring poetry of its lyrics. While the sport of falconry is rich in its literary heritage, there have been very few songs written about it. As far as we can determine most of the songs are ballads using falconry as a metaphor for finding true love and bringing it to hand. We believe this is the only hymn in which a falconry metaphor has been used, with Christ being the Falconer. Richard Leach has kindly hand-written his poem in an edition of five copies for us, and both poet and composer have signed the sheet music." Foreward is signed by Peter Devers, Archives of Falconry.

Abstract: Book is comprised of several components: The sheet music to "'The Falconer,'" published by Selah Pub. Co., 410-659, c1996, signed by poet/song-writer and composer; the handwritten words to the song, signed by Richard Leach; and biographies of Richard Leach and Alfred V. Fedak. A compact disc accompanies the volume

771. Liguori, Jerry. Hawks at a Distance Identification of Migrant Raptors. Princeton, N.J: Princeton University Press, 2011.

Call Number: QL 696 .F3 L538 2011

Abstract: "Hawks at a Distance" is the first volume to focus on distant raptors as they are truly seen in the field. Jerry Liguori, a leading expert on North American raptors, factors in new information and approaches for identifying twenty-nine species of raptor in various lighting situations and settings. The field guide's nineteen full-color portraits, 558 color photos, and 896 black-and-white images portray shapes and plumages for each species from all angles. Useful flight identification criteria are provided and the accompanying

text discusses all aspects of in-flight hawk identification, including flight style and behavior. Concentrating on features that are genuinely observable at a distance ... "--Dust jacket

Notes: Originally published: London : Jonathan Cape, 2014.
Abstract: An award-winning best-seller from the UK recounts how the author, an experienced falconer grieving the sudden death of her father, endeavored to train for the first time a dangerous goshawk predator as part of her personal recovery. "As a child Helen Macdonald was determined to become a falconer. She learned the arcane terminology and read all the classic books, including T.H. White's tortured masterpiece, *The Goshawk*, which describes White's struggle to train a hawk as a spiritual contest. When her father dies and she is knocked sideways by grief, she becomes obsessed with the idea of training her own goshawk. She buys Mabel ... on a Scottish quayside and takes her home to Cambridge. Then she fills the freezer with hawk food and unplugs the phone, ready to embark on the long, strange business of trying to train this wildest of animals."-- Dust jacket of a previous printing.

824. Marteinson, Sarah C. "Reproductive and Behavioral Effects of Two Brominated Flame Retardants in Captive American Kestrels (*Falco Sparverius*)." Thesis (Ph.D.). McGill University, 2010.
Call Number: QL 696 .F34 M37 2010
Abstract: "Brominated flame retardants (BFRs) are persistent organic pollutants that have reached a global distribution in the environment. Many of the BFRs are lipophilic and

bioaccumulative, and consequently several of them have been found in wildlife tissue with some of the highest levels recorded in several raptor species. The overall aim of this study was to determine the effects of exposure to environmentally relevant levels of the two most prominent BFRs, polybrominated diphenyl ethers (PBDEs: DE-71 mixture) or hexabromocyclododecane (HBCD) on the reproductive success, behaviour and physiology of captive American kestrels. In 2007, males exposed in ovo to DE-71 at three mean egg exposure concentrations of 289 ng/g ww for the low-exposure males, 1131 ng/g ww for the high-exposure males, or background levels of 3 ng/g ww for controls, were paired with unexposed females, and euthanized in the following year for testes extraction. In 2008, kestrel pairs were exposed via diet to technical HBCD (0.32 µg/µl wet weight (ww) daily) or the vehicle only for controls; testis mass and histology was examined in an additional group of males exposed to the same concentrations for three weeks. Pairs with males exposed in ovo to DE-71 demonstrated decreased clutch size, and egg mass, reduced fertility, and delayed timing of egg-laying when compared to controls. Both members of these pairs displayed reduced courtship behavior, including copulation frequency, and males demonstrated reduced parental behavior compared to controls. The testes of males exposed in ovo to DE-71 were enlarged and contained more seminiferous tubules with lumen, though the number of tubules containing final spermatids decreased with increasing in ovo exposure to some PBDE congeners. Additionally, testosterone levels were reduced during breeding in these males. Pairs exposed to HBCD via diet laid their clutches earlier and their average clutch size of eggs was larger, however no associated increase in reproductive success was noted."--Abstract

Abstract: Nestling American kestrels (*Falco sparverius*) inhabiting nest boxes placed throughout the Anaconda Smelter Superfund Site, Montana, were monitored for reproductive success and growth over two successive breeding seasons. A gradient of decreasing soil contaminant concentrations occurred with increasing distance away from the smelter stack. The contaminants of concern (COCs; arsenic, cadmium, lead, copper, and zinc) were determined in food items, pellets, fecal/urate, blood, kidney and liver tissues. Hepatic and renal porphyrin profiles were characterized, and erythrocyte ALAD inhibition assessed, for use as indicators of health effects. Site wide in 1999, 43 chicks hatched (81%) with 41 surviving to fledging age (95.3% fledging efficiency). In 2000, 34 chicks hatched (59%) with 32 surviving to fledging age (94% fledging efficiency). Nestling growth and demographics did not appear related to tissue contaminant levels. Active boxes were grouped into two site types (Smelter HiU and Opportunity Ponds) based on their proximity to the smelter site. In 1999, Smelter HiU birds had higher blood lead, liver cadmium, lead, and copper, and kidney cadmium. In 2000, only blood samples were collected, with notably increased lead and cadmium from Smelter Hill birds. Inhibition of erythrocyte ALAD activity at the highest blood lead concentrations indicated lead

concentrations reached a threshold level sufficient to initiate biochemical effects. An increase in liver 4-carboxyl porphyrin at the highest liver lead levels likewise suggested sufficient exposure to initiate disruption of heme synthesis. Food items were collected from each active nest. COC concentrations were higher in samples from Smelter Hill boxes, with notable increases seen in arsenic and lead. Contaminant levels in food items were sufficiently high for accumulation in nestling tissues, with elevated levels occurring in nestlings closer in proximity to the smelter

Abstract: A full color 2nd edition of this title, including many new color images by Mike McDermott. This textbook-style work on the training of the Northern Goshawk, Cooper's Hawk & Sharp-shinned Hawk contains 14 Chapters, 5 of which are Appendices. The book provides explanations of the training methods regarding imprint accipiters. It contains graphs to illustrate problem areas and explanations of key elements in the training and maintenance of a trained accipiter

Call Number: SK 321 .M25 2008
Notes: "This book is a continuation of the Desert Hawking series, and it could be viewed as a culmination of my hawking techniques. From the beginning of my falconry career, I have favored the direct pursuit hawks such as the accipiters, Harris and aplomado. Because of my senior status and the length of our flights, I hunt with four good legs under me. My preference is the Peruvian Paso. Desert Hawking IV: Quail begins with a focus on the Harris at quail and then moves on to hawking this game bird with the aplomado. There are 327 illustrations including color photos, drawings, and works of art. It is slightly shorter than its predecessor with 368 pages. The book closes with a chapter written by my friends hunting other prey with the aplomado, but the reader is forewarned that this work is narrowly focused on hawking desert quail."--Publisher's website.

Abstract: Describes various hunting styles with a strong focus on falconry. It contains a description of the Syrian method of taming and training hawks. The Saker is particularly mentioned as a bird of double passage, and several varieties are noted. There is also a chapter on the first man who ever tamed the Saker. James Edmud Harting devotes an entire chapter, "An Arabic treatise on hunting" (pp. [362]-370), referencing this work in his book entitled Essays on sport and natural history (London : Horace Cox, 1883).

Notes: "The Peregrine Falcon (*Falco peregrinus*) is an endangered species in Ontario. The species and its habitat are protected by Ontario's Endangered Species Act, R.S.O. 1980. Most of these guidelines apply to existing nest sites. Several recommendations are also made for potential eyries ... As the number of peregrines released to the wild in eastern North America increases, the probability of peregrines reinhabiting some of the historical eyries and nesting at other suitable sites increases. The Peregrine Falcon is sensitive to disturbance during the breeding season ... Peregrines seem to be more sensitive to disturbances occurring above or at the same level as cliffside eyries, than to disturbances occurring below eyries. Therefore, buffer zones above the cliff should generally be wider than those at the base of the cliff."--Introduction, p. 3.

Notes: "Published in cooperation with the Raptor Education Foundation, whose mission is to advance environmental literacy through educational programs, books, and research services. Check out their website at www.usaref.org.
Abstract: "Fidget and her brother Echo are two young peregrine falcons embarking upon their first adventures of freedom. Both falcons were hatched in an incubator by humans and then placed in a box nestled on a cliff. Fidget's Freedom, the first in this two-book story, describes their lives up to Fidget's first flight. Fidget's Folly takes up the story as the two youngsters learn to hunt and fend for themselves. New adventures await them as they grow into wild, independent masters of the sky.
"This fictional but biologically accurate story is based on the experiences and observations of scientists who successfully reintroduced peregrine falcons into the wild in North America. The peregrine's population had dwindled by the 1960s because of the use of the pesticide DDT, which causes egg shells to be thin and then break during incubation. Two subspecies of peregrine falcons were placed on the federal list of endangered species in 1970, and DDT was banned in 1972. Because of extensive reintroduction efforts with chicks like Fidget and her brother, peregrine falcons were delisted in the 1990s."

Notes: Fidget's Freedom is published in cooperation with the Raptor Education Foundation, whose mission is to advance environmental literacy through educational programs, books, research services, and their website: www.usaref.org ."--Book jacket.
Abstract: "Fidget is a young peregrine falcon eager to try out her newly feathered wings. She and her brother Echo had been hatched in an incubator in a laboratory and are now

living in a 'hack' box nestled on a cliff. This will be their home until they can hunt and fend for themselves. Their caretakers, both falconers and scientists, had become concerned about the plight of the peregrine due to the use of DDT in North America. DDT caused egg shell thinning and without intervention, extinction in some of their native territories was a possibility. When the box is opened to release the birds, Fidget, the bolder of the two, throws caution to the wind as she takes to her wings--and soon finds more than she bargained for on her first flight.

Call Number: QL 696 .F34 A54 2000
Abstract: "These surveys for nesting peregrine falcons were conducted through a contract from the Wallowa Mountains Zone of the Wallowa-Whitman National Forest as part of a cooperative agreement between Wallowa-Whitman National Forest and Idaho Power Company."--P. 2.
"Ground surveys were conducted to locate peregrine falcon nests on the Oregon side of Hells Canyon in the vicinity of Hells Canyon Dam. A new peregrine falcon eyrie was located in lower Hells Canyon Creek (T3S R49E S33 SW 1/4). The eyrie was successful: one female was fledged. Estimated nesting chronology was: Clutch date, May 1; hatch date, June 1; fledge date, July 12. The eyrie can be observed from the Hells Canyon Creek Boat Launch. This is a good location to monitor this site for peregrine activity and nesting success."--Abstract, p. [1]

Call Number: QL 696 .F34 P6 2009
Abstract: "Nest box programs provide supplemental nest sites for American Kestrels, *Falco sparverius*. When the availability of nest sites is a limiting factor, the addition of nest boxes can increase local breeding populations. These programs also facilitate the collection of data on breeding kestrels. This study focuses on an American Kestrel (*Falco sparverius*) nest box trail along Interstate 26 in northeastern Tennessee during the breeding seasons of 1998, 1999, 2000, 2003, 2004, 2006, and 2009. Productivity measures and reproductive success of nesting birds are provided and compared to other programs. The data are analyzed across years and by box. Finally, a discussion of the habitat surrounding the most and least active boxes provides recommendations for increased efficiency of the program."--P. 2

1054. Radcliffe, E. Delmé. Falconry. Notes on the Falconidae Used in India in Falconry. Rev. and reprinted ed. Gloucestershire Eng.: Standfast Press, 1971.

Call Number: SK 321 .R32

Notes: Based on 1st ed., London: Kent and Co., 1871, with added illustrations, and entitled Falconry, notes on the falconidae used in Indian falconry.

"Editor's Notes: The annotations included in this edition were drawn from Hugh Whistler's 1928 Popular Handbook of Indian Birds, as were the selected illustrations by H. Gronvold. The Handbook was first published in London, England, by Gurney & Jackson. The Latin names provided by Delme-Radcliffe, and his taxonomic grouping of species, differ somewhat from those in use today. However, his partition of genera into various sub-groups (especially his separation of the peregrine-type and desert-type falcons), is certainly valid from a falconer's perspective and still widely observed. Despite the gulf of years and culture which separate us from the author, Delme-Radcliffe's text remains both accessible and timely. His casual description of flights no longer possible, over lands almost certainly long destroyed, is at once entertaining and cautionary; his closing remarks on the effects of 'advancing civilization' ring as true today as ever."

Call Number: SK 35 .R389 2009
Abstract: "Memoirs of a Hunter is an astonishing account of hunting, trapping and hawking in Finland and Russia between 1904 and 1930. Coming from a manuscript lost for thirty-five years, this is a staggering true-life adventure of deep snow, dark forests and times and places long since claimed by history: in Finland, lynx are run down on skis, in Tsarist Russia borzois are matched against wolves, and below the Ural Mountains the reader is introduced to some of the most formidable golden eagles ever employed in falconry. It's a tale of bear hunts and of stalking seals out on frozen oceans, of forgotten techniques, hardship and danger. Described in graphic detail and illustrated by renowned Russian artist Vadim Gorbatov, this mesmerising account will captivate not only the hunter, but anyone interested in wildlife and the outdoors."--Dust jacket

Abstract: "A captivating insight into the world of the kestrel through the eyes of an enthusiastic raptor fieldworker -- this is an appealing book that rightfully raises the profile of the kestrel. A comprehensive picture of this delightful falcon is portrayed, including its lifestyle and the factors that affect its breeding success and survival. This is based upon almost 40 years' monitoring of the kestrel in south-west Scotland and further afield by the author and colleagues, giving a flavour of the integrated approach to monitoring and conservation. ... a mixture of facts with entertaining anecdotes and experiences, complemented with a wide range of colour illustrations. The reader is taken to exotic locations such as the Seychelles, Mauritius and the Cape Verde Islands to see the endemic island kestrels."--Back cover

Call Number: QL 696 .F34 S26 2004
Abstract: "In 2004, the Santa Cruz Predatory Bird Research Group (SCPBRG) was contracted by the Montrose Settlement Trustee Council to determine the presence and nesting status of American peregrine falcons (*Falco peregrinus anatum*) on Santa Catalina Island. SCPBRG biologists made four visits to the island during the 2004 breeding season. Two pairs of adult peregrines engaging in courtship behavior were located on cliffs on both the east and west sides of the island. While occupancy was determined at both sites, egg laying, incubation, and chick rearing were not determined, possibly due to early nest failure."--Introduction

 Call Number: TT 199.7 .S374 2014
 Abstract: Acclaimed bird carver Floyd Scholz explains the philosophy and techniques behind his most exciting project yet--a dynamic sculpture of a peregrine falcon snatching a green-winged teal in flight. He demonstrates the unique talent that makes him one of the world's greatest bird carvers and instructors. Ellyn Siviglia's photography and Floyd's descriptions explain techniques that seemingly transform wood into feathers.

1169. Smith, Peter. Y2K Falconry: Unlock Your Raptor's Potential. S.l: s.n., 2007.
Call Number: SK 321 .S65 2007
Abstract: "Standing on the shoulders of the 20th century and looking on into the future, Y2K falconry covers a huge amount of experimentation, with both long and short winged hawks. Subjects discussed range from imprinting and raptor conditioning to kite training and successful hunting strategies, also examining what can go wrong and importantly providing solutions to identified problems. Also featured are contributions, insights and interviews from both UK and international specialists, on their methods and chosen areas of expertise. Y2K introduces a new approach to some 'so-called' proven methods and as

such will no doubt attract criticism in a similar way as initial experimentation into imprinting larger Accipiters did some 15 years ago. The past 10 years or so has seen the US emerge as the major player in the falconry world; every year NAFA meets seem to attract an increasing number of European and particularly UK falconers. This is indirectly proportional to US falconers attending UK events. Many successful US falconers are almost household names in the UK falconry community whereas most of the UK's better practitioners are virtually unknown outside this country. Hopefully the final section of this book will enlighten readers to a 'few' of our more accomplished performers."--Dust jacket

 Abstract: When her twin sister, Cartwright, disappears, Cassidy Drummond can't help
 wondering if her father - a congressman known as much for his philandering as for his
 politics - has something to do with it. Desperate and deeply frightened, she turns to ex-cop
 PI Frank Pavlicek for help. But despite a long list of possible culprits - and the fact that
 Cartwright's car has been found with blood on the seats - Frank isn't convinced it's foul
 play. Soon the falconer is following a treacherous trail of family secrets and sinister
 scandals

 Abstract: Frank Pavlicek is hunting with his red-tailed hawk, Armistead, when he finds it. A teenage boy's body, barely concealed behind a pile of brush in a part of the forest Frank recently visited with his daughter, Nicole. It's a truly gruesome crime scene - one of the many things Frank doesn't miss about working homicide for the NYPD. But what the Charlottesville, Virginia, private investigator finds in the dead boy's wallet is even more disturbing: Nicole's phone number

1264. Till, Lawrence, playwright. Kes . London: Nick Hern Books, 2000.
Call Number: PR 6058 .I528 K472 2000
Abstract: "This new stage adaptation of Barry Hines' well-known film and novel once again proves its gritty charm and popular staying power..." --Back cover.
" 'Sensitively scripted and stunningly staged, Kes is essentially about a community which fails its young. At its heart is Billy, an apparently backward kid, neglected by his tarty mother, beaten up by his older brother and bullied on all sides. Billy's solace is his pet kestrel, on which he lavishes all the tenderness he has never known.' --The Times" --Back cover.
"First staged at the West Yorkshire Playhouse, 'Lawrence Till's skilful adaptation...offers a series of sure-fire scenes...Hines' story retains an undeniable emotional pull' --Independent--Back cover."

Filmed as Kes by Ken Loach in 1969, Barry Hines' novel is a modern classic, and is a set GCSE text. Lawrence Till's play version is ideal for classroom work and drama groups.

Call Number: QL 696 .F3 T84 1980
Abstract: "Having worked intensively with birds of prey for over twelve years, I am very aware of the difficulty of identifying raptors. There seems to be a lack of, and a need for, a concise guide that will enable an individual to identify, age and sex a raptor in the field or hand. It is my purpose in developing this field guide to produce such a book. This field guide should be useful to both the beginner and the avid bird watcher. All illustrations are drawn from photographs taken by [me] with the exception of the adult Goshawk taken by Steve Tully, the Red-shouldered and Broad-winged Hawk, drawn from Brown and Amadon (1968)...Hopefully, with the help of this field guide[,] you will be able to not only identify the adult, light phase hawks, but the majority of the more difficult ones, leaving you fewer and fewer unidentified species." --From Preface, page iii.

Abstract: "In accordance with Section 7 of the Endangered Species Act, the U.S. Fish and Wildlife Service (F&WS) has identified several concerns regarding the American Peregrine Falcon and its critical habitat in their biological opinion, dated 29 May 1979. In general, these concerns result from the implementation of the Lake Sonoma Master Plan and its related activities and include increased traffic, trespass onto private lands, potential development and habitat degradation. This document describes the analyses of alternative actions considered to address the concerns identified by F&WS. Actions within the existing authority of the Corps of Engineers have been taken to address the concerns and objectives of conserving the endangered falcons and protecting their critical habitat. Several alternative enhancement plans requiring additional Congressional authority have also been evaluated herein."--Report documentation page

Call Number: SK 321 .U66 2002
Notes: Frontpiece includes color plate by M.L.Upton #35/200, signed by artist and author.
Abstract: "The traditions of Arab falconry are told with a Western voice as Roger Upton delves into the mystique of the tradition of falconry in the Middle East. Since pre-Islamic times, the Arab world has had a proud history of flying hawks, including sakers, lanners and peregrines. From Morocco to Pakistan, falconers, princes and sheikhs come together at hunting camps to share their experiences and techniques for trapping hawks and flying them at quarry. Whether the hawking party involves a handful or hundreds of men, they sit around the campfire to discuss their day, tell stories and prepare their hawks for the next day of hunting. Whether the prey is the houbara bustard, the stone curlew or the desert hare, Arab falconers train their prized falcons to be successful hunters of their chosen quarry. Using traditional techniques such as hooding to modern developments like telemetry, Arab falconers find success and satisfaction in the sport of falconry. Arab Falconry explores their stories. With a personal account by author Roger Upton, including excerpts from his own diaries that follow his adventures on hawking trips over decades, this book provides a real glimpse into the world of Arab falconry, which is rarely documented in the West."--Publisher's website

Abstract: One afternoon in a French village in the 1920s, Alwyn Tower is visiting another American friend, Alexandra Henry. The Cullens, an Irish couple, accompanied by their chauffeur and a trained bird, Lucy, stop by. Alexandra's servants, Jean and Eva, complete this peaceful scene. But as the afternoon wears on, Lucy upsets this cozy assemblage and therein lies a tale of love and fidelity

Audiovisual Items

1. Abbott, Deborah and Carrasco, Manuel. Squirrel hawking with the Redtail Hawk. [S.l.]: Redfeather Prod; 2003. 1 videodisc. (44 min.) DVD.
Call Number: SK 321 .S67 2003 DVD
2. Abbott-Carrasco, Deborah. Hawking across Texas. [S.l.]: Redfeather Productions; [20--?]. 1 videodisc (48 min.) DVD.
Call Number: SK 321 .H39a DVD
Abstract: "Hawking Across Texas is a falconry video from the makers of Squirrel Hawking with a Red-tailed Hawk. Adventurous, heartwarming, funny, falconers (Gary Brewer, Manuel Carrasco, Jim Guy, and Jimmy Walker) will take you on a breathtaking journey through the hunt of their birds."--Container
3. ---. Hawking across Texas II. [S.l.]: Redfeather Productions; [20--?]. 1 videodisc (51 min.) DVD.
Call Number: SK 321 .H39 DVD
Abstract: "Hawking Across Texas II is a sequel from Hawking Across Texas I. Falconers Dave Stevens, Manuel Carrasco, Randy Peel, Jennifer Coulson, Tom Coulson, Bob Armbruster, Heather Gast, Victor Torres, Daniel Brooks, Maryann Coody, and Laura Culley will take you on an adventurous journey through the hunt of their birds."--Container
4. Atkinson, Joe. Training eagles the easy way. [S.l.]: CorJo Wildlife Productions; [20--?]. 1 videodisc (60 min.) DVD.
Call Number: SK 321 .T73 DVD
Abstract: "This is a step-by-step DVD that follows the training of a passage female golden eagle from her first feeding on the fist to her first kill in the field. The purpose of this DVD is to give a new eagle falconer a low stress method of training a freshly trapped eagle that will reduce the chances of stress borne illnesses such as aspergillosis. I developed the techniques used in this DVD while training many asper recovering eagles. I needed to find a method of training these birds and getting them hunting and back out into the wild without over-stressing them and possibly causing them to have a relapse. What I found was that by training in this manner, not only did I not have any eagles get sick, but I also ended up with super hunting birds. There are many ways to train birds and this is just one of many, but it works and has proven itself many times over."--<http://www.mikesfalconry.com> (viewed Nov. 10, 2012)
5. Atkinson, Joe and Atkinson, Chrissy. Eagle journal the movie. [S. l.], Rancheater, Wy: CorJo Wildlife Productions. Western Sporting distributor; 2006. 1 videodisc (30 min.) DVD.
Call Number: SK 321 .E11 2006 DVD-Video
Performer Note: Eagle falconer, Joe Atkinson
6. Bauer, Joseph C and Edwards, Wesley. Falcons of Arabia. Las Vegas, Nev: Falcon Productions; 1992. 1 videocassette (52 min.) VHS.
Call Number: SK 321 .F184 1992 VHS
Abstract: Depicts the grace, speed and power of falconry in the harsh yet beautiful

sands of the Arabian Desert. Demonstrates trapping and training techniques

7. Beebe, Frank Lyman. Frank L. Beebe: a falconer's legacy. [S.l.]: Northwoods Ltd; 2009. 1 videodisc (84 min.) DVD.
Call Number: SK 321 .F7 2009 DVD
Abstract: "Frank Beebe (1914-2008) is notably one of the most influential falconers of North America. Frank tells us his earliest adventures as a rifle toting youngster on the frontier of the Canadian West. This film highlights Frank's writings, winged lures, training techniques, and outspoken opinions. His love for the outdoors and birds of prey can be felt with every swing of the lure."--Container
8. Brewer, Gary. Introduction to squirrel hawking. Rainier, WA: Northwoods Limited; [199-?]. 1 videocassette (67 min.) VHS.
Call Number: SK 321 .I61 VHS
9. Bromley, Toby. The Falcon gentle. [S.l.]: Asley Manor; 1974. 1 videocassette (33 min.) VHS.
Call Number: SK 321 .F181 1974 VHS
Notes: Performer Note: Toby Bromley, narrator
Abstract: The history of falconry as it is practiced in Great Britain. Includes training, conditioning, and care of falcons. Shows falcons at work
10. Byrd, Kevin and Garner, Heath. B.C. trapping of red-tailed hawks & American kestrels. Hot Springs, AR: Big Byrd Productions; 2001. 1 videocassette (45 min.) VHS.
Call Number: SK 319 .B2 2001 VHS
Notes: Added Title: Introduction to B.C. trapping of red-tailed hawks & American kestrels
Abstract: Heath & Kevin have spun a video about a weekend trapping excursion that provides everything an apprentice needs to know in order to capture the first red-tail or kestrel. They point out the importance of making your own trap & tying it with nooses, the correct strength of line, bait items and how to set the trap to be successful. It clearly shows just how much fun trapping can be. It starts at making the trap and ends with jessing a fresh new hopeful
11. Cahill, Rosemary; Hubley, John, and Bildstein, Keith L. American kestrel: finding a home. Harrisburg, Pa: Commonwealth Media Services; 1999. 1 videocassette (15 min.) VHS.
Call Number: QL 696 .F34 A43 1999 VHS
Notes: Performer Note: Narrator, Jack Hubley ; interviewee, Keith L. Bildstein
Abstract: Discusses the American kestrel and their habitat, and demonstrates how to build a kestrel nestbox
12. California Hawking Club. California Hawking Club, 30 years road to Bakersfield. [S.l.: s.n.] ; [2001?] 1 videodisc ([50] min.) DVD.
Call Number: SK 321 .C154 2001 DVD
13. ---. California Hawking Club road to Yuba City [S.l.]: Rocker Hawker Video Productions; [1999?] 1 videocassette (24 min.) VHS.
Call Number: SK 321 .C153 1999 VHS

14. Canadian Peregrine Foundation. Life on the ledge [and] Operation comeback. Toronto: Canadian Peregrine Foundation; 1920. 1 videodisc (66 min) DVD.
Call Number: QL 696 .F34 L54 DVD
Notes: Contents: Life on the ledge (42 min.) -- Operation comeback (24 min.)
Added Title: Operation comeback
Abstract: Life on the Ledge: Fully narrated color video documenting the 1998 nesting season in Etobicoke. Follow the lives of Toby, Alberta and their four chicks over a period of three months, from incubation through hatching, banding, first flight and beyond. Operation Comeback: Introducing viewers to peregrine families across southern Ontario. Included are many highlights from the Canadian Peregrine Foundation's 1999 season, including the fostering of two chicks in Hamilton

29. Falconry and hawking the complete apprentice. [S.n.]: Stanga Productions; [2004?] 1 videodisc (99 min.) DVD.
Call Number: SK 321 .F353 2004 DVD
30. Falconry Centre. Hoodwinked. Kidderminster, UK : Pastime Videos; 1995. 1 videodisc ([60] min.) DVD.
Call Number: SK 321 .H776 1995 DVD
31. Fox, Nick. Behaviour & learning. Carmarthen, UK: Faraway Film Productions; [2005?] 1 videocassette (62 min.) VHS (The bird of prey management series; module 10).
Call Number: QL 677.78 .B618 v.10 2005 VHS
Notes: The bird of prey management series is a modular tuition course for falconers, breeders, rehabilitators, vets and zoo managers.
Abstract: "To successfully train a hawk or falcon, the falconer needs to know why a hawk acts as it does and how it learns to repond to the various stimuli it receives in adolescence and maturity. In this often overlooked side of falconry, Nick Fox explains the key points that will give you a well-manned, enthusiastic hunting companion. Do you know whether Insight Learning is better than Trauma Learning? What is the difference between Classical Conditioning and Reinforcement?"--Container back cover.
32. ---. Fitness training. Carmarthen, UK: Faraway Film Productions; [2003?] 1 videocassette (VHS-NTSC) (90 min.) VHS (The bird of prey management series).
Call Number: QL 677.78 .B618 v. 9 2003 VHS
Notes: The bird of prey management series is a modular tuition course for falconers,

breeders, rehabilitators, vets and zoo managers.

Abstract: "Covers the many aspects of preparing falcons, hawks and eagles for the hunting field, for display and for rehabilitation. You will understand what fitness means in biological terms before moving onto the various methods (and their variations) used to obtain peak physical fitness such as lures, kites, high jumps and general exercises such as calling off."--Booklet back cover.

33. ---. Nutrition. Carmarthen, Wales: Faraway Films Productions; [200-?]. 1 videocassette (VHS-NTSC) (55 min.) VHS (The bird of prey management series).
Call Number: QL 677.78 .B618 v. 1 2000 VHS
Notes: The bird of prey management series is a modular tuition course for falconers, breeders, rehabilitators, vets and zoo managers.
Abstract: Nutrition covers diets of wild raptors, choices of diets for captive raptors, digestion, measuring the crop, rangle, casting, washed meat supplements, diets for baby raptors, feeding invalids, risks in feeding wild food, and much more!
34. Fox, Nick and Barton, Nigel. Anatomy. Carmarthen, UK: Faraway Films; [2001?] 1 videocassette (67 min.) VHS (The bird of prey management series; v. 3).
Call Number: QL 677.78 .B618 v. 3 2001 VHS
Notes: "The bird of prey management series is a modular tuition course for falconers, breeders, rehabilitators, vets and zoo managers."--Container.
Abstract: "Written and edited by a panel of raptor specialists from the UK. A knowledge of form and function in raptors is a pre-requisite to understanding aspects of health care, management and training. ... Learn about the respiratory, reproductive and immune systems. What is the function of air sacs? How do the different organs function and where are they situated?"--Container
35. ---. Health care. Carmarthen, UK: Faraway Films; [2001?] 1 videocassette (85 min.) VHS (The bird of prey management series).
Call Number: QL 677.78 .B618 v. 4 2001 VHS
Notes: "The bird of prey management series is a modular tuition course for falconers, breeders, rehabilitators, vets and zoo managers."--Container.
Abstract: Discusses how to prevent and treat disease in raptors. Covers hygiene, the immune system, vaccination, and parasites
36. Fox, Nick ; Barton, Nigel, and Woodd-Walker, Paul. Basic training. Carmarthen, Wales: Faraway Films Productions; [200-?]. 1 videocassette (VHS-NTSC) (52 min.) VHS (The bird of prey management series; v. 2).
Call Number: QL 677.78 .B618 v. 2 2000 VHS
Notes: The bird of prey management series is a modular tuition course for falconers, breeders, rehabilitators, vets and zoo managers.
Abstract: Basic Training covers hacking, sources of birds, hooding, fitting equipment, progress charts and follows the training of a Peregrine, Saker and Harris Hawk from hack to flying free
37. Francis, Jonathan.. The Northumberland Crow Falcons. Wales, UK: Faraway Film Productions; 1998. 1 videocassette (65 min.) VHS.
Call Number: SK 321 .N878 1998 VHS

38. Gagliardi, Jose Luis. Neotropical falconry in Peru. Peru: Cuatro Vientos Productions; 2008. 1 videodisc DVD.
Call Number: SK 321 .N4 2008 DVD
Abstract: "Jose Luis Gagliardi, a Peruvian falconer with 28 years of experience in neotropical raptors, shows us a little about neotropical falconry in Peru. He takes us, along with his aplomado falcons and his pointing dogs, to the Peruvian Andes, up to 4000 meters above sea level to experience one of the most extreme types of hunting."--Container
39. Gallardo, Jose Luis Ariño; Acero, Isaac, and Bernabé Gómez. Spanish crow hawking [S.n. s.n].; [2006?] 1 videodisc ([35] min.) DVD.
Call Number: SK 321 .S63 2006 DVD
Abstract: " A fascinating two-year account of making a veteran crow-catching falcon. The film starts from insemination of the female Brookei Peregrine, incubation, hatching and early training, progressing to many exciting and successful flights on crows in the wide-open plains of Spain. English narration, excellent music and great action make for a very pleasing poetic tribute to this specialized art and practice."--From www.northwoods-falconry.com description.
40. Gaston, Matt; Gaston, Jim; Ketterson, Will, and Cortez, Michael. What ought we be?: the story of falconry at the United States Air Force Academy. [S.l.]: Word One Associates, Inc; 2003. 1 videodisc DVD.
Call Number: SK 321 .W5 2003 DVD
Abstract: "In September 1955, the first class of cadets at the United States Air Force Academy selected the falcon to be the Academy mascot. Falcons have come to represent something fundamental about the Academy. They answer at least a partial answer to the question: 'What ought we be?'. "The falcon among birds: Meet nature's supreme aerial gladiator. From head to toe, the falcon's body exists for speed and combat. Falcons often confront birds over twice their size, but they attack only when necessary, and then with instant, devastating effect."--Container. "Capturing and training a falcon: Accompany cadet falconers as they capture a baby falcon high on a cliff in the Colorado Rockies. Watch them care for the growing bird and train it to fly free before crowds of thousands."--Container. "A day in the life of a falconer: Follow a cadet falconer through a typical day at the Air Force Academy. These cadets deal with the rigorous demands of academics, athletics, and military training, and they somehow find time to spend two or three hours every day caring for the birds."--Container
41. Guardians of the cliff: Peregrine falcon. Elmira, N.Y: educational images, Ltd; [19--?]. 1 videocassette VHS.
Call Number: QL 696 .F34 G83 VHS
42. H₂O Productions. A falconer's memoir. [S.l.]: H₂O Productions; 2000. 1 videorecording (60 min.) VHS.
Call Number: SK 321 .F183 2000 VHS
Abstract: Dan O'Brien, writer, wild-life biologist, falconer, buffalo rancher, tells of his love-affair with the Western South Dakota grassland area near Bear Butte and his hope to repopulate the nesting areas on Bear Butte with falcons

43. Harris hawking. [S.l: s.n.]; 2009. 1 videodisc (55 min.) DVD.
Call Number: SK 321 .H377 2009 DVD
44. Hawking in China: 'land of flying dragons'. Carmarthen, Wales: Faraway Film Productions; [199-?]. 1 videorecording (53 min.) VHS.
Call Number: SK 321 .H393 VHS
Abstract: "Go on an expedition into the pine clad mountains of southern China hawking pheasants with the Naxi people. Attend a falconer's wedding and go fishing with the cormorants. Hunt hares with goshawks in the snowy hills of Central China. The 5000 year-old tradition of hawking in China filmed for the first time"--Container.
45. Hayes, Greg. A falconer's odyssey. [S.l: s.n.]; [2005?] 1 videodisc ([45] min.) DVD.
Call Number: SK 321 .F352 2005 DVD
Abstract: "This production is a telling of two interwoven tales. The first is a story about the early stages of American game hawking, and the second is a recounting of the narrator's participation in its development. For those falconers interested in a modern history of North American falconry, this is the video for you. Focusing primarily on flights with longwings, the narrator deftly weaves personal reminiscences together with the unfolding development of falconry in the western United States. The video begins with a brief photo-synopsis of the birth of U.S. falconry, discussing big names such as Meredith, Nye and McFadden. Then, Hayes shifts the focus to his generation of falconers; those who came of age in the 1960's, and who brought about the move from baggies, to duck-hawking to intentional pursuits of upland game, most notably sage grouse and prairie chickens. Excellent historical footage, as well as some great sequences of Prairie Chickens and Sage Grouse accompany the chronological narrative. The giants of the North American past are given the respect they are due, but importantly, it is noted that the type of gamehawking we enjoy today--the type of gamehawking we take for granted--is a newer phenomena on this continent. There are interesting parallels between Hayes' development as a young boy, content and amazed that a wild bird would come to his fist, and the early bagged-quarry demonstrations which, he says, comprised the bulk of falconry meets in those early years. As U.S. falconry came of age, so did Hayes, and his understated style is all the more impressive when one considers the degree to which he was involved with the sport's monumental strides. This video is not a history course, nor is it a technical piece. Rather it is a humble tribute to those things that falconry encompasses for Hayes, and for many of us: friends and family, camping and conservation, and the thrill of the chase."--From www.northwoodsfalconry.com description on 12 Oct. 2010.
46. Hill, Adam; Knight, Andrea; Mason, Scott; Mitchley, Richard, and S. G., Graham. Parahawking. Surrey, England: Himalayan Frontiers; 2003. 1 videodisc (ca. 42 min.) DVD.
Call Number: SK 321 .P373 2003 DVD
Notes: Performer Note: Narration by Richard Mitchley and Andrea Knight
Abstract: Documents the collaboration of paragliding instructors Rajesh Bomjan and Adam Hill with falconer Scott Mason to develop a method for training birds of prey to fly in tandem with paragliders, scouting for favorable atmospheric conditions

47. Hofsommer, Paul. Max a filmed journey. Sheridan, WY: distributed by Western Sporting; 2006. 1 videodisc (70 min.) DVD.
Call Number: SK 321 .H647 2006 DVD
Abstract: "This journey masterfully documents the nine day old "Max," a captive-bred Northern Goshawk, in his daily ritual of conditioning and training until he was hard-penned and hunting. On this journey the viewer will explore many of the "Do's and Don'ts" for training a physically and mentally healthy hunting companion. While attention is given to training technique, a majority of this DVD concentrates on developing a very social bird who is calm and well-behaved around traffic, unfamiliar people, and potentially frightening situations."--Container label
48. Hoods of Distinction. Making the Dutch Hood with Ron Rollins: the complete "how to" guide for making Dutch Hoods. [S.l.], USA, Ranchester, WY: [s.n]. distributed by Western Sporting Publications; 1991. 1 videocassette (112 min.) VHS.
Call Number: SK 321 .M235 1991 VHS
Abstract: "Step by step instructions from the master hood maker. You will learn: Techniques, selecting leather, cutting patterns, required tools."--Container.
"Ron takes great personal pleasure in sharing his knowledge and skills as a Master Hood Maker. He began reading and learning how to make falconry equipment over 30 years ago. As a young boy with his first kestrel he learned that the most important piece of equipment to a falconer is the hood. It must fit properly and be well made to endure every day use. Hoods were especially difficult to make so he spent a great deal of time striving to create and produce a unique style. It took ten years of hard work to finally finish a complete set of hood molds and patterns."--Container.
49. Jennings, Kenneth C and Webb, Jason. Jackapalooza. Ranchester, WY: Western Sporting; 2006. 1 videodisc (34 min.) DVD.
Call Number: SK 321 .J33 2006 DVD
Abstract: "Life just doesn't get any better than meeting friends out West to go jack hawking with Harris's Hawks. In fact, this DVD is dedicated to the captive bred Harris's Hawk. ... Selective breeding has refined this group-hunting species into a well-oiled machine, with the hawk enjoying the hunt and its successes every bit as much as the falconer."--Container.
50. Kristersson, Mikael. Kestrel's eye. New York: First-Run Features; p2003. 1 videodisc (86 min.) DVD.
Call Number: QL 696 .F34 K75 2003 DVD
Abstract: Shows, without narration, the daily life of a pair of kestrels living in the church tower of a small Swedish town, including hunting, eating, grooming, nesting, and raising their young. "Filmed over several years, it is a wonder-filled portrait of a family of kestrels (European falcons) who live in a church tower above a small Swedish town. The amazing cinematography, nominated for a Swedish Oscar, captures the intimacy of the birds' lives. ... set to the clucking and cooing of these extraordinary creatures as they share field mice, ruffle their feathers, engage in flyby lovemaking, warm their eggs"--Container
51. Leach, Richard and Fedak, Alfred V, composers. The Falconer: a sacred hymn. [S.l.: s.n.]; 2007. 1 v CD-ROM.

Call Number: SK 321 .L434 2007

Notes: Probably published by Archives of American Falconry, Boise, Idaho.

Limited ed. of 5 copies, autographed by poet and composer.

"Foreward: I came across this delightful hymn while researching the history of the sport of falconry. It is a wonderfully powerful anthem, both in the solemnity of the music and the fine inspiring poetry of its lyrics. While the sport of falconry is rich in its literary heritage, there have been very few songs written about it. As far as we can determine most of the songs are ballads using falconry as a metaphor for finding true love and bringing it to hand. We believe this is the only hymn in which a falconry metaphor has been used, with Christ being the Falconer. Richard Leach has kindly hand-written his poem in an edition of five copies for us, and both poet and composer have signed the sheet music." Foreward is signed by Peter Devers, Archives of Falconry.

Abstract: Book is comprised of several components: The sheet music to "The Falconer," published by Selah Pub. Co., 410-659, c1996, signed by poet/song-writer and composer; the handwritten words to the song, signed by Richard Leach; and biographies of Richard Leach and Alfred V. Fedak. A compact disc accompanies the volume

52. Loach, Ken. Kes New York, NY: Criterion Collection; 2011. 2 DVDs (111 min., 171 min.) videorecording.

Call Number: PR 6058 .I528

Notes: Based on the book "A kestrel for a knave" by Barry Hines.

Originally released as a motion picture in 1970.

Abstract: "Named one of the ten best British films of the century by the British Film Institute, Ken Loach's Kes is cinema's quintessential portrait of a working-class Northern England. Billy (an astonishingly naturalistic David Bradley) is a fifteen-year-old miner's son whose close bond with a wild kestrel provides him with a spiritual escape from his dead-end life. Kes brought to the big screen the sociopolitical engagement Loach had established in his work for the BBC, and pushed the British "angry young man" film of the sixties into a new realm of authenticity, using real locations and nonprofessional actors. Loach's poignant coming-of-age drama remains the now legendary director's most beloved and influential film." --Back of case.

53. Lupton, Roy; Seddon, Andy, and Talbot, Keith. Battles on the high ground. Ranchester, WY: Western Sporting; 2006. 1 videodisc (60 min.) DVD.

Call Number: SK 321 .B38 2006 DVD

Abstract: "Action, humour, and stunning flights. ... Fantastic flights in the rugged and wild landscape of the Scottish highlands with golden eagles, Goshawk, Harris's, and Redtail flown at blue hare and rabbits."--Container.

54. The lure of falconry. Sacramento, CA: California Hawking Club; 1991. 1 videocassette (20 min.) videorecording.

Call Number: SK 321 .L96 1991

55. Neese, Tim and Katterhenry, Joe. Hawking, the Gos: cottontails & jacks. [S.l.] : Digital Studios Production, Ranchester, WY: distributed by Western Sporting Falconry

Books & Videos; [199-?]. 1 videodisc (45 min.) DVD.

Call Number: SK 321 .H394 DVD-Video

Abstract: "The American Goshawk has long since been the favorite of many falconers from around the world due to their speed, veracity, and agility. They were the prize of kings and noblemen dating back thousands of years. They were often called the "Cook's Hawk" as they provided so much game for the kitchen. Tim Neese and Joe Katterhenry have been involved in falconry for over 30 years. This video is a collection of flights from their hunting trips which span a ten year period. "Jacks and Cottontails" has flight after flight of the American Goshawk at its best--chasing rabbits and jacks. This video was made in Kansas and other areas of the Midwest."--Container.

56. Nelson, Morley and Woodward, Joanne. World of raptors. [Venice, Calif.?]: Echo Film Productions : Distributed by STS Media ; 2003. 1 videodisc (55 min.) DVD.
Call Number: QL 677.78 .W67 2003 DVD-Video
Notes: Performer Note: Narrated by Joanne Woodward ; with Morley Nelson
Abstract: Join raptor expert Morley Nelson as he shows where to watch for hawks, eagles and falcons and how to identify them
57. Nelson, Norman; Nelson, Tyler, and Nelson, Morley. World of raptors. Boise, ID: Echo Film Productions; 1997. 1 videocassette (55 min.) VHS.
Call Number: QL 677.78 W67 1997 VHS
Notes: Performer Note: Host: Morley Nelson
Abstract: Looks at birds of prey in the wild, showing how to identify falcons, owls, eagles, hawks, osprey, vultures and more, as well as showing their behavior, their actions in flight, and their habitat
58. North American Falconers' Association. "The life & times of Gerald Richards". [S.l.], Utah: Utah Falconers Association; [2005?] 1 videodisc ([55] min.) DVD.
Call Number: SK 321 .L722 2005 DVD
Abstract: "A memorial film tribute to one of America's falconry icons, Gerald Richards. Covers Gerald's life and times from his start as a young falconer to his untimely death flying one of his favorite species, the Red-tailed Hawk. Gerald is famous for a number of 'firsts' in falconry including formation of the Utah Sky Trials 'Pigeon Derby' as well as the start of 'Great Basin Labs,' one of the first commercial breeding projects selling American Kestrels (and his clash with USFWS). There are interviews with family, falconers and friends recounting Gerald the athlete, father, falconer, storyteller, and animated comic and best friend."--northwoodsfalconry.com on Sept. 28, 2010
59. Palmer, Robert and North American Falconers' Association. A falconry generation: N.A.F.A. 2005 field meet. [S.l.], Rainier, WA: EBC Productions. distributed by Northwoods Limited; 2006. 1 videodisc (50 min.) DVD.
Call Number: SK 321 .F35 2006 DVD
Abstract: "Let's take a ride to the N.A.F.A Field Meet 2005. This vivid documentary provides an overview of falconry in modern America by combining still photography and video to portray many fine moments during the meet. Redtails, merlins, and Harris Hawks can be observed chasing game around northeastern Utah, while

peregrines and gyr falcons soar high in the crystal blue skies. Valuable insights are provided during candid interviews with prominent members of the falconry community."--Container.

60. Parry-Jones, Jemima. Breeding birds of prey. Ranchester, WY: Distributed by Western Sporting Publications; 1990. 1 videocassette (55 min.) VHS.
Call Number: QL 696 .F3 P377 1990 VHS
Abstract: "Jemima Parry-Jones is one of the world's leading authorities on breeding birds of prey, with 38 species bred to date at her National Birds of Prey Center in Gloucestershire, England. ... The video covers the full spectrum of breeding: aviaries, nesting, incubation, rearing and returning young are topics which benefit from Jemima's 20 years of experience, wit and wisdom. There is enchanting footage sequence of a chick inside an egg."--Container label.
61. ---. Understanding falconry. Market Harborough, Leics, Ranchester, WY: WCP Video. Distributed by Western Sporting Publications; 1990. 1 videocassette (60 min.) VHS.
Call Number: SK 321 .P377 2990 VHS
Notes: Performer Note: Jemima Parry-Jones
Abstract: Covers the subject of falconry, from the types of raptors available through jessing, belling, weighing and charting, training and eventually flying and hunting both a hawk and a falcon
62. Peregrine Fund (U.S.). Birds of prey their biology and ecology. Boise, Idaho: Mountain Visions; 1996. 1 videocassette (20 min.) VHS.
Call Number: QL 696 .F3 B573 1996 VHS
Notes: Performer Note: Narrator, Chris Ackerman
Abstract: Introduces birds of prey and the characteristics that make them unique. Their importance to the balance of nature is emphasized
63. ---. Birds of prey their biology and ecology. Boise, Idaho: Mountain Visions; 2005. 1 videodisc (20 min.) DVD.
Call Number: QL 696 .F3 B573 2005 DVD-Video
Notes: Performer Note: Narrator, Chris Ackerman
Abstract: Introduces birds of prey and the characteristics that make them unique. Their importance to the balance of nature is emphasized
64. Salem, Daven. Hawking the West. Moreno Valley, CA, Ranchester, WY: Falco Video Productins. Western Sporting Publications; 1988. 1 videocassette (VHS) (60 min.) VHS.
Call Number: SK 321 .H392 1988 VHS
Abstract: Shows non-stop game hawking action highlights from the NAFA, CHC field meets, and Sky Trials (Reno, Las Vegas, California and Utah Sky Trials)
65. Scholz, Floyd. Carving & painting the American kestrel. Woodstock, NY: Homespun Video; 2005
2 videodiscs (4 hr., 30 min.) DVD (Masterclass series).
Call Number: TT 197.7 .S37 2005 DVD-Video
Notes: Performer Note: Instructor, Floyd Scholz

"Now in his 38th year of carving, Floyd Scholz is widely recognized as one of the preeminent bird sculptors in the world. He is in constant demand as a teacher, lecturer and art show judge, and his prestigious carving and painting seminars at the Vermont Raptor Academy typically sell out years in advance. Floyd's incredibly realistic sculptures are consistent top award winners at major shows throughout the U.S. and Canada, and are highly prized by collectors worldwide. He has been featured in many major magazines and national television appearances, and is the author of five books on birds and carving."--Container.

Abstract: An expert carver shows how to carve an American kestrel out of a block of tupelo wood

66. Schreiber, Liev. Raptor force. Chicago: Distributed by Questar; 2008. 1 videodisc (56 min.) DVD (Nature video library).
Call Number: QL 677.78 .R37 2008 DVD
Notes: Performer Note: Narrator, Liev Schreiber
Event Note: Originally broadcast on PBS as part of the Nature series, c2007
Abstract: The story of falcons, owls, eagles and hawks that are masters of the sky. The grace, speed and acrobatic precision of flying raptors are studied by aeronautical engineers who design new aircraft technologies
67. Smith, Pete and Soan, Chris. Urban Goshawks. [S.l.], Ranchoester, WY: Yarrakk Films. distributed by Western Sporting; 2003. 1 videodisc (20 min.) DVD.
Call Number: SK 321 .U73 2003 DVD
Abstract: "Urban Goshawking, not available commercially until 2003, & three years in the making, follows Pete Smith's & Chris Soan's Finnish male Goshawks as they wreak havoc to the Corvid populations of Shropshire, Northampton & Redditch. Non-stop fast action features Crows, Rooks & Magpies getting whacked up close & at long range by their incredible hawks! Features interviews and insights from both Falconers on how to emulate their results and fast track to one of the most exciting new elements of modern Falconry."--Container.
68. Timmons, Scott. Game hawking in the twenty first century. [S.l.]: Rocker Hawker Video; [2005?]
1 videodisc ([40] min.) DVD.
Call Number: SK 321 .G36 2005 DVD
Notes: "This DVD-R disc may not play on all DVD players."--Disc.
Abstract: "This video was premiered at the 2005 California Hawking Club annual meeting on the night of the banquet. The audience's reaction to this fine falconry film-makers latest creation was resounding. This film includes separate chapters on: The Beach in California: Falcons on Ducks; Arizona Desert: Harris' Hawks being flown on Quail and Cotton-tail Rabbit; Fall in Wyoming: Long-wings on Sharp-tail Grouse and Red-tailed Hawk on White-tail Jacks; California Desert: Ret-tailed hawks on Black-tailed Jacks."--From description at www.westernsporting.com on 13 Oct. 2010.
69. Wood, Brad and Pidone, Kevin. Making the Anglo-Indian hood: the complete guide for making a sewn Anglo-Indian hood. Rainier, WA: Northwoods Limited, c2000. 1 videodisc (114 min.) DVD.

Call Number: SK 321 .M35 2000 DVD

Abstract: "A good fitting Anglo-Indian Hood will be a pleasure to both falconer and hawk, falcon or eagle. Learn where to get patterns, tools, leather, how to cut, dye, stitch, brace and finish with a classic Turk's knot."--Container.

Call Number: Special Collections - SMS 522
Abstract: Two prints from paintings by Hope Schwank - "Air Force Academy -- Serving God and Country" and "The Year of the Falcon."
19. Shaw, Ray. "Mark Mraz Collection."
Call Number: Special Collections - OS 10
Abstract: Framed painting of a Prairie falcon, by Ray Shaw.

20. Shor, Williston. "The Facts About Operation Falcon," 1984. 11 p.
Call Number: Special Collections - RG 499
Notes: typewritten
Abstract: Letter to NAFA members.
21. Unknown. "The Air Force Academy: the Academy With a Performing Mascot," 1957. 9 p.
Call Number: Special Collections - RG 499
22. ---. "The Falcon (Fact Sheet), USAF Academy Office of Information," [1960]. 6 p.
Call Number: Special Collections - RG 499
Notes: typewritten
23. [USAF Academy]. "The Academy Mascot," n.d.
Call Number: Special Collections - RG 499
Notes: typewritten
Abstract: A history of the selection of the falcon as the U.S.A.F. Academy mascot
24. USAF Academy. "USAFA Falconry," n.d.
Call Number: Special Collections - RG 499
Abstract: Folded legal sheet describing the history of falconry and the origin of the USAFA mascot.
25. USAF Academy. Admissions Liaison Office. "Falconry," [1982].
Call Number: Special Collections - RG 499
Abstract: Folded legal sheet describing the history of falconry and the origin of the USAFA mascot.
26. USAF Academy. Directorate of Information. "Fact Sheet on the Air Force Academy Mascot," 1974. 3p.
Call Number: Special Collections - RG 499
Notes: typewritten
Abstract: A discussion of the falcon as mascot of the Air Force Academy. Includes information of types of falcons; the Academy falcons; cadet falcon handlers, and how the falcon is captured and trained.
27. [USAF Academy. Library]. "Falconry," [1967].
Call Number: Special Collections - RG 499
Abstract: Folded legal sheet describing the history of falconry and the origin of the USAFA mascot.
28. ---. "Falconry," 1978.
Call Number: Special Collections - RG 499
Abstract: Folded letter sheet describing the history of falconry and the origin of the USAFA mascot.
29. ---. "Falconry," n.d.
Call Number: Special Collections - RG 499
Abstract: Folded legal sheet describing the history of falconry and the origin of the USAFA mascot.

30. ---. "Mascots," 1955-1971.
Call Number: Special Collections - Newspaper clipping file, box 66
Abstract: Newspaper articles on Academy mascots.
31. [USAF Academy. Office of Information]. "Fact Sheet on the Air Force Academy Mascot," [1959]. 5p.
Call Number: Special Collections - RG 499
Notes: typewritten
Abstract: A discussion of the falcon as mascot of the Air Force Academy. Includes information of types of falcons; the Academy falcons; cadet falcon handlers, and how the falcon is captured and trained.
32. USAF Academy. Public Affairs. "Fact Sheet on the Air Force Academy Mascot," 2008.
Call Number: Special Collections - RG 499
Abstract: A discussion of the falcon as mascot of the Air Force Academy. Includes information of types of falcons; the Academy falcons; cadet falcon handlers, and how the falcon is captured and trained.
33. Watson, Richard A. "Richard A Watson Collection ." one 3 ring binder.
Call Number: Special Collections - SMS 726
Abstract: Falcon/falconry postage stamp collection.
34. [Wiley, Elizabeth A. "[Untitled]. " n.d. 8 p.
Call Number: Special Collections - RG 499
Notes: Carbon copy of typewritten manuscript.
Abstract: Possibly a news release on the Academy Falconry program.
35. Young, Jack C. "History of the Cadet Wing Falcons & Falconry, Part I, 25 Sep 55 - 30 Jun 56," [1956]. 6 p.
Call Number: Special Collections - RG 499
36. ---. "History of the Cadet Wing Falcons & Falconry, Part II, Jun 56 - Jun 57," [1957]. 21 p.
Call Number: Special Collections - RG 499
