

### Manchu falconers in Changbai Mountain region

China.org.cn, July 19, 2013

0 Comment(s) Print E-mail

One of the crucial steps in falcon training is to accustom the bird to return to the falconer. In the beginning, the young or newly captured bird is tethered to a long line. The falconer puts fresh meat on one of his or her arms, holds the line and calls the falcon. The training continues until the bird is accustomed to return to the falconer. [DEEP magazine]
