## DESCRIPTION —

There is no animal more regal, no creature more majestic, no species more symbolic in Saudi Arabia than the falcon. These apex predators are gifted with otherworldly abilities. Their speed is astonishing, making the falcon the fastest animal on earth. The practice of falconry has ancient traditions in the Arabian Gulf, and this time-honored art is a manifestation of the respect between falcon and falconer.

Falcons from Saudi Arabia displays the region's deep admiration and appreciation of this powerful creature and showcases Arab falconry as a uniquely and quintessentially Arab art.

## IN PARTNERSHIP WITH ONE TREE PLANTED

Since 2019, Assouline has partnered with the non-profit organization One Tree Planted in their joint mission to create a more sustainable world. Through this partnership, Assouline plants one tree for every book sold. Once these trees reach maturity, Assouline aims to create a sustainable cycle by sourcing paper from the trees it has planted.

## THE ART OF LUXURY BOOKMAKING

Since its beginnings in 1994, Assouline has been dedicated to creating books that are as informational as they are beautiful works of art. The respect for the product and the process of creation is evident in every facet - the traditional technique of hand-binding covers, the imagery that transports the reader to another place and time, the luxurious thickness of each page.
